News of how your support is helping animals in Luxor

University of Liverpool

We are overjoyed that we have an annual group of students along with their professor, from the University of Liverpool, who come to volunteer for three weeks. We received this email from Emily Guinane one of the visiting students...

"I can't believe how quickly time has gone! I have had the most fantastic time, thank you to all of the team for such an amazing opportunity. I have written a case - it's only short but this donkey was my favourite patient. Although I'm pleased he has recovered, selfishly, I am sad to see him go home because he is just lovely!

The owner of this young donkey brought him as he was unable to stand up. The young donkey was diagnosed with spinal trauma, which affected his ability to use his hind limbs. With pain relief, vitamins, a course of steroids and regular visits to help him get up and walk he is now fit and well, able to stand on his own and walk normally with no pain. He is getting stronger every day and is now ready to go home. He has been a real favourite during my time at ACE."

25 Years

Thank you

to everyone who has donated to celebrate our 25th year of providing free veterinary care to the animals in need.

We could not run our charity hospital without your kindness.

Following our summer newsletter we would like to express our gratitude to all of our volunteers who so kindly run our charity shop in Luxor which helps raise funds for our hospital. Some of our ladies have been absolute stars assisting us with house clearances too. Special thanks to those who have been there for us from the very beginning. We also have a few people who kindly take photos for us, both in the shop and at ACE, so thank you to all of you that help with this.

We would also like to thank the kind volunteers who visit ACE to assist us with dog walking. Not forgetting Annalisa Barrelet and the wonderful staff at Rosssdales who have also been assisting us for many years.

Finally... thank you to all of our veterinary, nurse and general volunteers who have been amazing!

Over The Stable Door

Some news about a few of our recent inpatients

85,000
Egyptian
Pounds equates
to over
£1,300

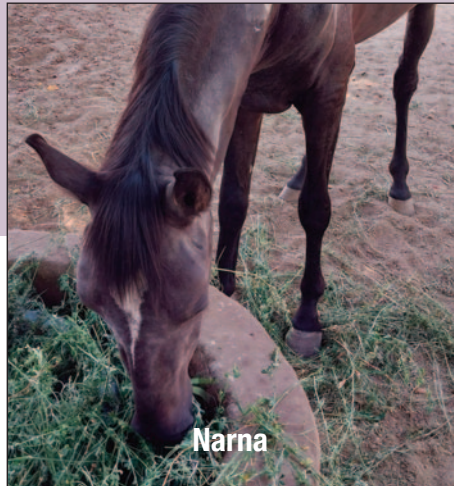

Autumn APPEAL

Here at ACE we would like to purchase an

Electrosurgery unit

for our veterinary team to use in their many surgeries. This piece of kit will assist them in many ways including coagulating, dissecting, fulgurating and shrinking tissue. We have made enquiries and we can purchase this in Egypt for 85,000 Egyptian Pounds, plus taxes. This currently equates to over £1,300.

Please assist us if you can by donating towards the cost. Thank you for your caring support.

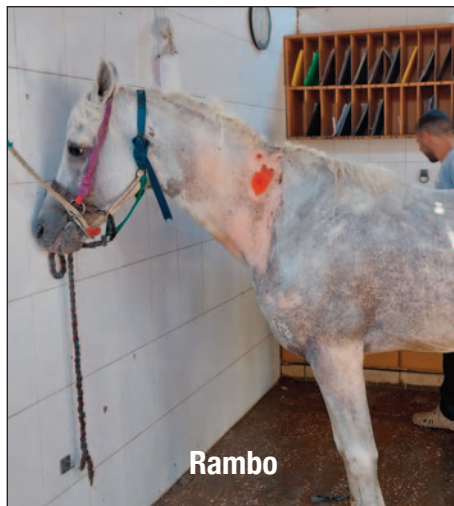

Narna

This sweet mare is the victim of a dirty needle used by a vet in a nearby village. A huge abscess formed but thankfully a neighbour suggested the owner take Narna to ACE for treatment. The abscess is draining well and Narna will make a full recovery.

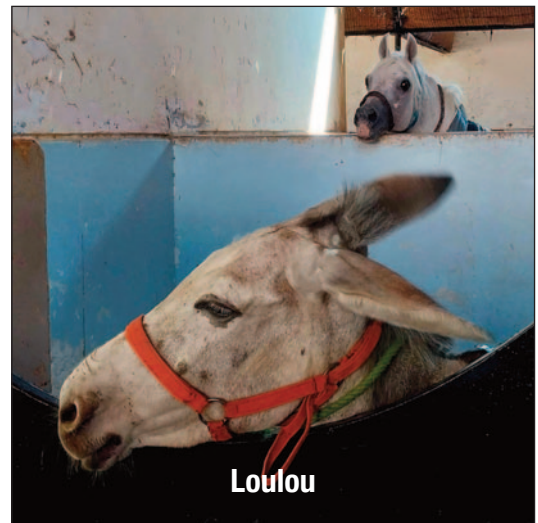

Mama

This lovely donkey is hospitalised with a wound on her right front leg. Her foal is of course staying with her as the babe needs 24 hour access to the milk bar!

Rambo

This feisty stallion has been in a fight over a mare that was in season. Rambo came off the worst! He was badly bitten - the wound extends to both sides of his neck. Most of the stallions here are ungelded due to cultural reasons.

Loulou

Poorly fitting harnesses can take their toll on working horses and donkeys. Poor Loulou has a nasty wound on her back which is gradually healing. She will go home with one of our Donkey Doughnut cushions - kindly made by our amazing supporters.

We value your support and would like to keep you informed about our

Stripe

This cute youngster was in a traffic accident. She had multiple wounds including two deep ones on her legs. She is doing well and will recover.

Chippy

Sadly, leg fractures can result in euthanasia. Luckily, this male only chipped the leg bone so has a good prognosis. The bandage helps to prevent him walking around too much.

Leave a Legacy

Donations in the form of legacies or in memory of loved ones really touch our hearts. They have a lasting impact on our work and the horses and donkeys that rely on us for their wellbeing.

With your permission, your name, or the name of your friend or partner, will be added to our Legacy Tree.

Thank you.

Money Saving Tip

We are so pleased that Kim's daughter, Michelle, is now working for the Utility Warehouse, or UW for short. Michelle has teamed up with charities to raise up to £150 per customer sign up. Every supporter/potential customer will deal directly with Michelle for everything... she will work out if she can save you money by switching your current provider. If she can, and you are happy to proceed, then ACE will receive between £25 and £150 in return.

giftaid it

make your donations go...
25% FURTHER

If you are a UK Taxpayer you can sign our Gift Aid form and enhance your support for ACE. Your donations will go 25% further without any extra cost to you.

You donate £5	we receive £6.25
You donate £30	we receive £37.30!

Please sign and return our Gift Aid form today.

Tom & Kathy Staly are Stars!

The article below was kindly written by Tom Staly

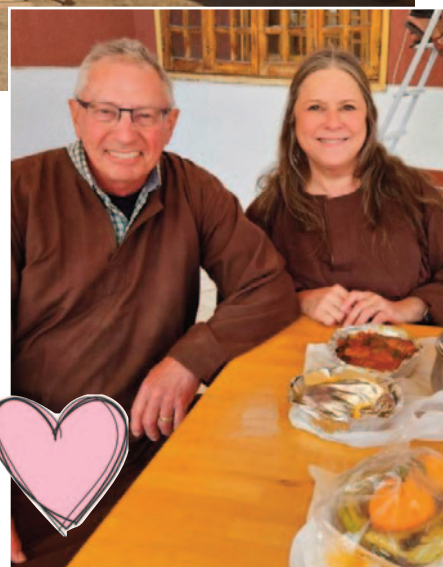

"For Kathy Staly and me our month-long trip to Egypt has been among our most gratifying and productive. Every day we reported to work at ACE feeling joy being with the staff who make life better for Luxor's animals and people in need.

During our visit in 2020 we were invited to join the ACE Team. This time we were welcomed to the ACE Family. ACE is the ideal animal charity for us to support. Kathy has always been an animal advocate because animals are unable to advocate for themselves. The mission of ACE aligns perfectly with Kathy's vision.

We had no expectation of major impacts on ACE but planned to continue our usual low-key activities. Discussions provided opportunities to advance our shared priorities there; this includes my avocation of fixing and building things.

Donations to ACE are used for the day-to-day running of the hospital, including paying salaries, utilities, animal feed, medicine, supplies, fuel, rubbish disposal etc. Any extra funds would be allocated for repair and maintenance of the facilities but was never sufficient to cover the needs.

I had worked on small projects at ACE five years ago and could see the results were still effective. However, more needed to be done. With the team we identified needs for repair and upgrading. Estimates for costs were produced and Kathy and I immediately accepted responsibility for payment.

ACE will be our focus for charity contributions going forward. Observing how effectively ACE is meeting its goals with the dedicated service of support staff, being welcomed as volunteers to help as we are and participating in the daily life of Egyptians in Luxor, offers rewards that far exceed the value of donations we make."

We would like to extend our heartfelt thanks to Tom and Kathy for the overwhelming support and generosity to our charity.

Kim Taylor
