News of how your support is helping animals in Luxor

Season's Greetings...

to you, our amazing supporters who have assisted us during 2022 and thank you all for your continued support both financially and emotionally. Some days are extremely tough for us and our volunteers who have continued to help out both at our hospital and our charity shop in Luxor. Your encouraging letters and words of support provide an immense boost for us and we just could not achieve all that we do without YOUR kindness.

**We wish all of you,
our wonderful supporters,
a Happy and Healthy 2023.**

**Motass and
his 'ACE' Pup!**

This young lad brought his new puppy along to our small animal clinic for a check-up. We are so pleased that more and more of the younger generation are seeing dogs as companions rather than guard dogs.

Motass told us that he has chosen to name his companion 'ACE' - what a wonderful choice!

A Message from Kim in Luxor

This year has just flown right by, with the pandemic now hopefully behind us we are very happy to see this tourist season starting with record numbers (AT LAST) which will certainly help the local economy and, boy oh boy, is it needed. The cost of living has more than doubled this year in Luxor and we know that you too are under increasing financial pressure and that is why we appreciate your help so much. You have no idea just how grateful we are to you as without you we certainly would not be able to continue.

Kim X

Christmas Appeal for help

The time has come for us to carry out some overdue maintenance to our stables and vet clinic as they are in need of a refurbishment. Without our stable facilities we would not be able to hospitalise the many horses and donkeys that are desperately in need of daily veterinary help.

Of course, we cannot start this work until we have the funds available to do so and we are asking our kind supporters to assist us.

Update

In our last newsletter we told you about the poor pregnant cat that we saved from being thrown in to a canal whilst tied up in a sack. You will be pleased to learn that Honey and her two female kittens are doing well here at ACE and as soon as the babes are old enough they will both be spayed.

Thank you to everyone who contributed towards their care.

We value your support and would like to keep you informed about our

Over The Stable Door

Some of our inpatients that have received care thanks to... **you** our supporters

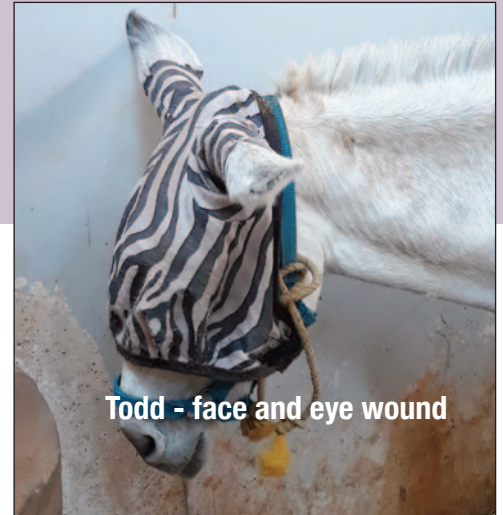

Amos - neck abscess

We treat many horses and donkeys that have developed an abscess for a variety of reasons. Hospitalisation is often needed to provide daily treatment until the infection is eradicated.

Sukkar - damaged fetlock

Sukkar damaged the fetlock on her front leg and is very lame but with the help from our vets she has a good prognosis and will soon be able to go home.

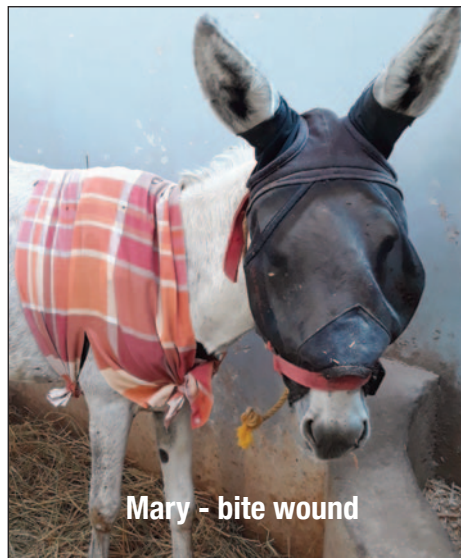

Todd - face and eye wound

This male donkey was in an altercation with another un-gelded male resulting in wounds on his face as well as an ulcerated eye.

Zeus - colic

Zeus was hospitalised suffering from colic which is a very painful condition caused by problems in the gastrointestinal tract.

Mary - bite wound

Mary is being treated for a very deep bite wound at the base of her neck which was caused by an over amorous male donkey.

Petal - hoof abscess

Petal has a very painful hoof abscess which is receiving daily care. It was caused by a foreign object piercing the sole of Petal's hoof. She is now making great progress.

animal welfare work and fundraising activities either by post or via email.

Animal Care in Egypt, 10 Stretham Road, Wicken, Cambridgeshire CB7 5XH

Registered Charity no. 1082679 Registered in Egypt Society Luxor# 2/2015

Our History

For those of our supporters who are unaware of our origins, here is a brief overview...

“In life we often see things that we would like to change, but to get the opportunity to totally change your life around and put your ideas into action is rare.”

Kim Taylor (Co-founder and Manager)

Have you ever felt like your heart was going to break? That sensation when you see something you just can't imagine possible and have no control over? That's exactly what happened when Kim Taylor and her Aunt Julie Wartenburg were on holiday in Egypt. They saw small underfed donkeys suffering from neglect by the very owners who needed them so badly. Animals were being beaten in the street and horses with raw skin being worked with the very harness that caused the damage.

Kim and Julie felt they couldn't simply leave knowing there were so many animals needing help, and Animal Care in Egypt evolved. Julie used her retirement package as a set up cost for the new charity which enabled ACE to rent a small piece of land and build a washing area, as well as donating a large sum of her own money towards the running costs in the first few years. Julie worked tirelessly to organise all the paperwork needed to set up a charity in Egypt and the UK, along with relentlessly fundraising to ensure the future of ACE.

Today...

ACE is an ever-growing, great team of professionals and volunteers all working towards the same goal - to relieve and prevent the suffering of the animals in Egypt and Kim continues to manage the hospital.

Volunteer With Us

If you would like to come and volunteer with us we always need help from vets, vet students and general volunteers.

Veterinarian Lucy Hardingham came to help us during October and she found the experience to be very fulfilling and gained invaluable experience refreshing her veterinary skills. Lucy also learned about the complexities of treatment for the working horses and donkeys in Egypt.

FOR MORE INFORMATION or for a fundraising pack (most information can be found on our website) please contact Helen on: +44(0)79 7986 5352 or: helen@ace-egypt.org.uk

DONATE though our website, using PayPal or Credit/debit card. Or you can post any donations to: Animal Care in Egypt, 10 Stretham Road, Wicken, Cambridge, CB7 5XH.
